

WE DEMAND A REFERENDUM NOW!

Britain is being threatened by the end of its national independence!

How? Because Blair and New Labour are determined on two things:

- Firstly they want to scrap the Pound, the traditional currency of Great Britain for a thousand years, and replace it with the alien Euro. The British People's Party says NO to this – scrap the Euro not the Pound!
- Secondly, and even more seriously, Blair's Euromaniacs want Britain to become part of a United States of Europe which will put an end to ALL our national freedoms and put us under European laws which are totally against British law. For instance, criticise the serious race and immigration problems in Britain and you could be faced with EXTRADITION to an EU member country whose jails are not fit for human habitation – even though you have broken no British law!

The latest figures show that a massive 87% of the people of Britain do not want the Euro, do not want the new unjust and alien laws and do not want membership of the European Union.

What they want is British independence – a Britain free from the faceless Eurocrats of Brussels.

Blair is dodging a referendum on the whole issue because he knows he would lose it and his New Labour Government would collapse!

The British People's Party DEMANDS a referendum on the EU! - Get Britain out now!

Save our pound and say NO to alien laws!
