

# FREEDOM? *WHAT* FREEDOM?

For hundreds of years freedom of speech has been the right of every honest British Man and woman. Now that birthright has been taken from you.

Labour and Conservative governments have passed Race Laws and Public Order laws which forbid full and free discussion of the questions of race and immigration in Britain. They know their precious multiracial Britain is a DISASTER - so they are shutting up the voices of dissent by dragging honest White patriots before their law courts and fining or jailing them for the most trivial offences!

Above: Oldham race attack victim, war veteran Walter Chamberlain -  
*Even he can't speak the truth about his attackers!*

Are you ANGRY about the way free speech has been taken away from you?  
Are you ANGRY that you can no longer speak about the crisis mass immigration and the floods of asylum seekers have brought to this country?  
Are you ANGRY that race riots are tearing up towns such as Oldham, Burnley and Bradford and you can't say a thing about it?

*You should be!*
