WHITTAKER AND THE TORIES HAVE FAILED BRIGHOUSE & RASTRICK

In a few weeks time, time will run out for Gordon Brown - the unelected leader of our country - and he will have to call a general election. As usual, there will be the usual proliferation of parties and candidates vying for your vote, however most will see it purely as a contest between the liars and war criminals of New Labour and the Conservative Party - AKA Blue Labour, so similar are their policies - who we in the British People's Party refer to as the "plastic patriots". In this issue of Fighting Back we thought we should take a closer look at the Tory Party as most people are probably thinking of giving them a chance again having become heartily sick and tired of New Labour now after 13 wasted years of misrule and spin.

We will start by examining their parliamentary candidate for this area, a certain Craig Whittaker, who will be of interest to many folk in Brighouse and Rastrick as he is also a local councillor for the Rastrick ward on Calderdale Council. Since being elected in 2003 Mr Whittaker has continually failed the people of this area. As part of the Conservative led council he has presided over the continued neglect and deterioration of our town to such an extent that, despite being the

second largest town in Calderdale (after Halifax) we are continually overlooked and forgotten about when it comes to getting our fair share of resources, we discussed this at length in our first issue a few months ago, but suffice to say the only way we will get a fair deal again is if Brighouse and Rastrick runs its own affairs and has its own council again as the BPP are continually campaigning for.

Going back to Councillor Whittaker, this "man of the people" hasn't bothered to turn up to nearly half the council meetings he was supposed to over the last 12 months therefore failing to represent the people who elected him on 12 occasions!! As the person in charge of "Children and Young People's Services" at Calderdale Council he has failed to provide activities for teenagers and presided over the council's atrocious track record on preventing child abuse of which a recent report revealed that the massive failings in the council's children's care services, that he is responsible for, had resulted in the deaths of two young children and another one being left blind and severely disabled. He has failed to apologise for this disgrace and certainly won't resign over it as any honourable

person would, he just suspends other people. Mr Whittaker has forgotten all about the people he claims to represent now and just spends all his time hobnobbing with Tory big-wigs such as David Cameron and William Hague or trying to con voters in far away Hebden Bridge and Todmorden into supporting him. If Councillor Whittaker wishes to be elected to higher public office - and get his snout in the expenses trough at Westminster - he needs to understand that with power comes responsibility and you cannot hide from your constituents.

If, after consideration of the above, you are inclined to overlook the deficiencies of the local candidate and still vote for the Tories because you think they are patriotic and will sort out the mess that the country is in now, they will be tough on immigration, won't let Europe ride roughshod over the country and continue to bleed us dry, they will sort out the rise in crime and stop the MP's expenses abuses that have occurred then please read on as they are about as patriotic as those plastic union jack flags they wave about at their annual conference (usually made in South Korea or Hong Kong)...

REMEMBER! it was the Tories who took us into the EU in 1973 and signed the Maastricht Treaty in 1992 effectively neutering this country's ability to make its own laws now and the Tories also want the EU expanded to include backward countries such as Turkey and Georgia.

REMEMBER! it was the Tories under Margaret Thatcher who lifted all restrictions on lending facilities for the banks thereby precipitating the rise in unsustainable mortgages which have led to the credit crunch and recession we are currently enduring.

REMEMBER! that Conservative Governments have consistently refused to allow us a referendum on restoration of the death penalty for child killers and terrorists and that Tory leader David Cameron's big idea to reduce crime was to tell us all to "hug a hoodie"!!

REMEMBER! Tory MP's who claimed expenses for duck-houses and cleaning of their moats during the recent expenses scandal and the husband and wife Tory MP duo were both claiming for different second homes so that all the houses they owned had actually been paid for by the tax payer - US!!

REMEMBER! since 1950, Conservative governments have actively encouraged and presided over the largest influx of immigrants in British history into our overcrowded island, mostly as a source of cheap labour for their big business bosses and that thanks to the Tories we are being dispossessed of our ancestral homeland and will become a minority in this country by 2060.

Smarmy Craig Whittaker
