

EDITORIAL

Well, we finally had a general election and the widely discredited New Labour government was kicked out after taking us into illegal and unwinnable wars, presiding over financial meltdown and recession and leaving the gap between rich and poor at it's widest ever - and this under a supposedly "socialist" government of "equality" and "fairness".

We now have a coalition government of Conservative and Liberal Democrat and it is anyone's guess how long this "alliance" will last. One thing you can be sure of though, is that it will be "business as usual", nothing substantial or radical will change whichever of these three parties are in power. And of the other parties, only the BNP came close to challenging the hegemony of the "Big 3", with the Green party seeing their vote shrinking compared to previously (their fluke win in "Gay Capital" Brighton notwithstanding) and UKIP proving again that they have absolutely no relevance outside of a European election.

It is now up to the BPP to challenge the Lib-Lab-Con in this part of the world as no other party is prepared to take on the task, and challenge them we will, with one of our first targets the newly elected Conservative MP for this area: Craig Whittaker - who we expect to see very little of now he has got his sticky hands on the Expenses purse.

He succeeded in conning enough people to vote for him despite his lamentable record of attendance as a councillor and his disgraceful lack of care or responsibility in looking after our children as head of Calderdale council's "Children and Young People's Services" department, the failures of which we highlighted in the previous issue of "Fighting Back" and for pointing this out to the people of this area - in the name of democracy - Mr Whittaker saw fit to berate our candidate for Todmorden, Dave Jones, about it and even demanding an apology!

Well, we have news for you Mr Whittaker:

**WE ARE HERE TO STAY
AND YOU AIN'T SEEN
NOTHING YET!!**

A Message from the BPP Commissioner!

If there was ever a time that the White Nationalism was needed - the time is now. Things have spun out of control and no one is doing anything about it. There are so many that sit back while everyone else does the work. We urge you to get up and stand for what you believe in. We hear so many folk talk of how sick they are of what is going on in this country today, but they do nothing about it and they only say things like this behind closed doors.

Well the British People's Party will no longer sit back while our rights are taken away everyday. Our jobs are given to immigrants, and I can tell you why that is. One reason is the fact that the company owner can pay migrants mere peanuts (or even under the table). It is not just the little companies doing this anymore but even MP's have been caught out employing illegal immigrants in Westminster. Surely now is the time to take a stand and put a stop to all of this.

No longer is it safe for our children play outside. We are in constant fear of them being picked up by some sick twisted pervert. Or we are in constant fear of them being killed by the thugs that run our streets. Native Brits move to the country to get away but running is not going to solve anything, no matter where we go the trouble always follows. So many times you hear about older folks living on the same street for 40 or 50 years only to be

forced to move because of gangs and other scum. In some areas you have to watch where you go in fear of being beat to death by some yobbo in order to prove himself to the others of the gang. Our country is going to hell fast. It is up to us to save what we have left. We as a people have to make moves to defend ourselves. I only ask that you do some research on this that I have spoke about to see that these are indeed facts.

There is a lot of talk these days about Black pride, Jewish pride, Muslim pride, and yes even "Gay" pride. There is only one major segment of the population which is NOT encouraged to take pride in its own heritage and the achievements of its ancestors, these are White people. The lack of racial cohesiveness amongst our own people is a truly sad and a strange thing, because no group has more to be rightfully proud of than the White people of the world. The glories and greatness that men and women of our race have won over the centuries should serve as a source of eternal pride and inspiration to White people everywhere. Since the dawn of history, we have been a mighty race of builders, explores, artists, warriors, inventors, philosophers and cultivators. We have sailed the seas, tamed the vast wilderness, scaled towering mountains and journeyed to the depths of the ocean and into the cold void of outer space.

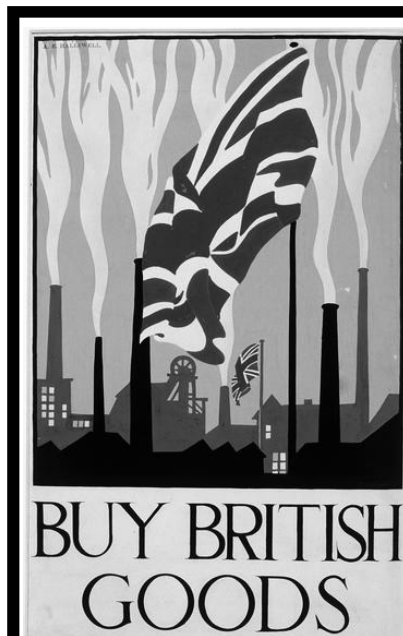

In order for an individual to be psychologically healthy, he/she must have a clear cut sense of identity and self-worth. Likewise, for our race as a whole to be strong and healthy, White people everywhere must develop the same sense of racial identity and racial worth - regardless of what spineless MPs like Craig Whittaker say! There is no better way to attain this very necessary level of racial awareness than in having pride in your people and standing with others who do the same. We are determined to maintain and enrich our cultural racial heritage.

COUNCIL BIG-NOBS POCKET BAGS OF MONEY IN 'EFFICIENCY SAVINGS'

THE woman responsible for slashing the wages of some of the council's lowest-paid workers received a £182,000 "golden goodbye" when her own job was axed. It's 'money galore' at Halifax Town Hall as high-ranking council workers, most of them doing non-jobs, received hundreds of thousands in wages. This is at a time when the salaries of these 'workers' earning £50,000—£90,000 per year has risen by a quarter, there are now 64 of them! Only recently 'Corporate Services Director' Catherine Parkinson received on top of her £112,000 salary a golden handshake amounting to £182,000 in redundancy payouts! Part of her job as one of 26 'chief officers' was to sack some of the Council's LOWEST paid workers.

Accounts show no council workers earned more than £90,000 in 2008/9 and now there are loads:

Chief executive Owen Williams bagged £166,000, including £20,000 towards his pension / Deputy chief executive Diane Cheesebrough's pay went up from £75,000 to £138,000 / Head of Finance Pete Smith received £103,000 / Health and Social Care Boss Jonathan Phillips trousered £134,000 to name just a few!

The local branch of the British People's Party is launching a campaign to promote local food and is calling on residents to give more trade to local small businesses and local farmers rather than the unscrupulous and environment polluting megastores such as Tesco, Sainsbury's and Asda.

There are many ways in which buying locally sourced food is beneficial to our community as well as the obvious benefits to local farmers and food producers. This benefits the environment by keeping road transport to a minimum and buying locally produced meat helps to stop transporting live animals over long distances unnecessarily.

The BPP also believes that the principles of "Fair Trade" should be extended from Third World food producers to include UK farmers. Any local people, in particular farmers and food producers, who wish to get involved in this worthwhile campaign please contact us on the email address or telephone number elsewhere on this bulletin.
