

Editorial

Welcome to the first issue of "Fighting Back", the local newsletter of the British People's Party in Shropshire.

The local Shropshire unit of the BPP was set up only last month and hopes to campaign on a number of local issues as well as standing candidates in future parish, county council and general elections.

The BPP is Great Britain's only REAL alternative to the corrupt politicians of the Labour, Liberal and Conservative parties. No matter what party is in power at any given time, nothing seems to get any better. The need for a party like the BPP is a necessity in order to represent the values of the British people.

This country has declined over the years, but regardless, the average person will still vote lib/lab/con. By joining the British People's Party, you will be sending a clear message to the criminals in Westminster that you have had enough! No longer are we prepared to sit back and watch our nation crumble into the dust. No longer will we turn our backs and do nothing while our country is destroyed from within. This is OUR country, join the BPP today!

POLITICAL CORRECTNESS

Political Correctness has completely replaced British politics. Fight back against this tyranny!

In this day and age, our once-free and democratic nation is descending rapidly into a totalitarian and dictatorial regime in which our democratic right to free speech will be all but lost. We cannot say or think as we see fit because of the tyrannical system known as "political correctness". So what is political correctness and how has it become so successful? First and foremost, it is an attack on free speech, clear thinking and discussion. Political correctness is perpetrated by the left in politics as a cover for their flawed ideology - a sort of cultural Marxism. By cloaking their strange ideas under the cover of not wishing to offend anyone (which naturally appeals to a person's better nature), they try to bypass debate and give a "received wisdom" which must not be questioned. And anyone who disagrees with this "received wisdom" must therefore be a really nasty person and deserves to be ostracised by their peers. For example, if you question whether mass immigration into this country is necessarily a good thing, then you must be a nasty bigoted "little Englander". Come on everyone - shout him down with cries of "racist". Of course, only the hard thinking could be drawn into this charade - anyone with an ounce of common sense can see right through it. Of course, political correctness has made common sense a thing of the past. If you catch a burglar in your house, then it's probably best to help the poor soul by carrying your possessions to the front door lest he should trip up and hurt himself and it's you that ends up in court! Illegal immigrants (if caught) are rarely deported. Those who are deported are just the more honest ones who don't know how to play the system or haven't been coached by the National Coalition of Anti-Deportation Campaigns which is funded by your lottery money! Oh and have you got a long way to go to get here? Why not hijack an airliner for the trip? Don't worry, we will let you stay! Would you like a black coffee? NO! You can't say that! It's coffee without milk and Local Authorities spend a fortune of our money on making their employees attend courses on Newspeak and Diversity training! Try organising an event or trip and you find yourself tied up in the endless red tape created by the Health & Safety Executive. These people are all part of the "Nanny State" which insists on sticking its nose into every aspect of our lives and telling us how to live it! Don't let anyone fool you that political correctness is just about "being nice to people". That's called good manners. Political correctness has been deliberately designed to subvert free speech, debate and common sense, replacing these with a ruthlessly enforced set of left wing ideas. The BPP will fight back against this tyranny for as long as it takes.

Help us break the politically correct shackles that bind each and every one of us. Help us to destroy this Marxist lib/lab/con government. *Join the BPP today!*

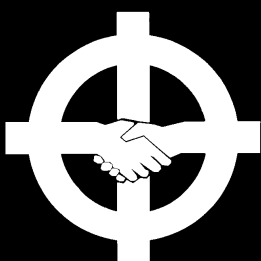

Europol Spies On Britons

Millions of Britons face being snooped on by a new European Intelligence Agency which has been handed frightening powers to pry into our lives. Europol can access personal information on anyone - including their political opinions and sexual preferences - if it suspects, rightly or wrongly that they may be involved in any "preparatory act" which could lead to criminal activity. Until January 1, Europol was a police office funded by various states to help tackle international organised crime. But it has been reborn as the official criminal intelligence-gathering arm of the EU and Brussels has vastly increased its powers. It can now target more than simply organised crime and the burden of proof required to begin monitoring an individual has been downgraded. Campaigners have expressed concern over the vague list of "serious crimes" which the Agency can help investigate, which include racism, xenophobia, environmental crime and corruption. Among personal details that can be gathered and stored are "behavioural data" including "lifestyle and routine; movements; places frequented", tax position and profiles of DNA and voice. Where relevant, Europol will also be able to keep data on a person's "political opinions, religious or philosophical beliefs or trade union membership and data concerning health or sex life". A spokesman said: "There is a real danger that opposition to EU policies could make one liable to arrest".

The European Union - a foreign, dictatorial and oppressive entity that has no place in British politics. We must once again stop a foreign government taking Britain.

SHREWSBURY BUS STATION - A COMPLETE DISGRACE

Below is a copy of a letter sent to the "Shropshire Star" highlighting one of many problems in our neglected county:

I totally agree with your correspondent. (Starmail April 3)

Shrewsbury bus station has become an absolute pit.

The escalating anti-social behaviour is exactly as described, and I recently had to enlist the aid of the shopkeeper to put out a fire in a rubbish bin resulting from this.

Also, I have seen several individuals who I believe are known to the police, hanging out there.

The toilets are disgusting and frequently a foul smell from them pervades the nearby bus queues. Is this the impression we wish to give to visitors to Shrewsbury?

If our county council can't keep the bus station, the gateway to Shrewsbury and by extension, the whole of Shropshire, in a recently decent condition, then what are they doing? This is one example of a number of issues neglected by our incompetent leaders.
